ABOUT ME

Experienced **Next.js** Developer with a proven track record of building high-quality, performant web applications. Proficient in leveraging the power of **Next** and **React** to create scalable and efficient front-end solutions. Strong expertise in component-based architecture, state management, and RESTful API integration.

TECHNICAL SKILLS

Languages	:	JavaScript, HTML, CSS
Frameworks	:	React, Next, Tailwind, Three.js
Dev Tools	:	Git, Gitlab, Docker, CI/CD Pipelines

EXPERIENCE

Next.js Developer May 2019 – Present
Faico Holding - Steel Factory

- Developed reusable React components and implemented complex UI features using **Next.js** framework
- Experienced in designing and implementing **CI/CD pipelines**
- Worked with **REST APIs** to retrieve and display data from databases
- Proficient in **Three.js**, for creating 3D visualizations and interactive experiences
- Collaborated closely with UX designers and back-end developers to create seamless and intuitive user interfaces
- Implemented automated testing using **Jest** and **React Testing Library**

Frontend Developer Apr 2016 – Feb 2019
Maghzafzar - Online Chess Game Platform

- Developed and maintained complex web applications using **React**
- Utilized state management libraries such as **Redux** and ensure consistent data flow
- Implemented **responsive design** principles, ensuring optimal user experience across various devices
- Actively participated in **Agile** development processes, including sprint planning and daily stand-up meetings
- Developed new features for web application, resulting in a 20% increase in user engagement over six-month period

EDUCATION

University Of Mazandaran Babolsar, Mazandaran
Bachelor of Software Engineering *2010 – 2013*

- the main project was about watchman route problem that is about the smallest routing path a watchman should go to see all the space on the room , the accuracy of my program was about 98% in different scenarios – the code is available on my github : https://github.com/sajjadabd
